EDUCATION

Baden-Württemberg Cooperative State University

Mannheim, Germany

B.Sc. Business Information Systems – Software Engineering

Sep. 2024 – Sep. 2027 (expected)

- Grade: 1.4 (German scale, 1.0 best); dual-study programme run in cooperation with SAP SE
- Relevant coursework: Accounting & Finance, Statistics & Operations Research, Project Management
- Bachelor's thesis: benchmarking quantum optimisation against classical solvers on supply chain problems, including the hardware threshold at which the approach becomes commercially viable

EXPERIENCE

SAP SE

Walldorf, Germany & New York, USA

Student Training and Rotation (STAR) Program, including:

Sep. 2024 – Sep. 2027

Private Equity Relations & Consulting, Global Private Equity – New York

May 2026 – Aug. 2026

- Screened 20,000+ live deals and re-prioritised the top 1,500 through a multi-criteria risk framework combining rule-based and LLM-based scoring of deal team and partner notes, replacing blanket coverage with signal-driven targeting
- Consolidated 40,000+ portfolio companies and 20,000+ deals into a single pipeline and portfolio view relied on by 12 Managing Directors and regional private markets leads, cutting research cycles from weeks to seconds
- Ran deep dives on business models and AI value-creation potential across technology portfolio companies, acting as domain advisor to sponsors, implementation partners and internal sales teams from diligence through value creation

AI Research & Advisory, AI Blackbelt MEE – Walldorf

Nov. 2025 – Feb. 2026

- Researched multi-agent decision-making under Bayesian game theory and reinforcement learning, improving agentic decision optimisation by 172% over a default self-routing agent baseline in a microgrid test case
- Generalised the approach into a reusable open-source framework, released under the SAP organisation on [GitHub](#)
- Delivered a custom client proof of concept and translated the findings into executive-level material for demos and partner workshops across the MEE region

Partner Evaluation & Integration, Digital Currency Hub – Walldorf

Jan. 2025 – Aug. 2025

- Scouted and screened external exchange and infrastructure providers, assessing technology, integration effort and commercial terms before recommending the partner taken forward
- Owned the resulting decentralised exchange integration into SAP's core ERP end to end, from technical evaluation through to production delivery
- Led communication with external partners across organisations; the solution was subsequently adopted into SAP's product suite

EXTRACURRICULAR ACTIVITIES

Mannheim Investment Club e.V.

Mannheim, Germany

Private Equity Team & Staff Unit to the Executive Board (Information Systems)

Sep. 2025 – Present

- Member of the private equity team at one of the largest student finance societies in the DACH region, covering deal analysis, business model assessment and market research
- Worked through live transactions with the investment teams of 3 mid-market private equity firms in dedicated deal workshops
- Scaled the club's information systems to its current 700+ members as a staff unit reporting directly to the executive board

Student Body (StuV), DHBW Mannheim

Mannheim, Germany

Finance Officer

Oct. 2025 – Present

- Manage a five-figure annual budget, covering planning, allocation across student initiatives and year-end reporting
